## Fingerprint Time Recorder

Companies that focus on increasing the overall productivity and efficiency of the organization will find this system a worthwhile investment and a valuable asset. With this system, "FRAUD" is not only reduced to a minimum as in the case of proxy or buddy punching, all previous methods of manual calculations of standard and overtime hours performed by employees will be a thing of the past. You will be able to enjoy up-to-date reports such as total standard/overtime hours performed by individual employees, late login and early logout by personnel and many others.
